Tam Plenus HIGH COLLAGEN® Shots

Scan the code for more information:

Short Product Description:

High dosed collagen shots with 10 g collagen peptides. For beautiful skin, hair & nails, strong connective tissue as well as healthy joints, tendons & bones.

Product Description:

Benefits of HIGH COLLAGEN®

High dosage: HIGH COLLAGEN® Shots are made from high-quality ingredients and are highly dosed with 10 g collagen peptides per daily dosage.

Super flavour: The HIGH COLLAGEN Shots can be enjoyed pure, without mixing. The taste is really good, slightly sweet and sour with a natural blackcurrant-cherry flavor. The shots are sugar-free and sweetened with stevia and a bit of honey.

Proven effectiveness: The positive effects of HIGH COLLAGEN® have been confirmed by clinical studies

Optimal resorption: Regular collagen molecules as used in in most products are often too big to be absorbed by the human body. Solugel® is made from high quality collagen peptides from natural resources. A special technical process is applied in order to break down collagen peptide in smaller molecules with a higher bioavailability.

Fair price-performance ratio: HIGH COLLAGEN® is made from high-quality ingredients and works efficiently. However, HIGH COLLAGEN® is not more expensive than other products on the market.

Collagen Drinks
7 drinking ampoules, 25 ml
